

## English Derivations

Many of the words we speak in English come from Latin. You may also notice links between Latin words and those in Modern Foreign Languages such as Spanish, Italian and French.

From your knowledge of Latin, tick, circle or **highlight** the correct answer in each sentence:

Example: A pugnacious dog would...		be small	be greedy	<b>like fighting</b>
1	An equestrian statue would feature	a dog	a horse	a cat
2	At the Roman baths, the temperature in the tepidarium would	cold	hot	warm
3	A diligent pupil works	carefully	slowly	quickly
4	The accelerator makes your car	stop	move slowly	move quickly
5	If you are instructed to proceed at an airport, you should	go back	go forward	stand still

Write down as many English words as you can which come from each of these Latin words:

<b>audite !</b> (listen!)	<b>gratias</b> (thanks)	<b>portate!</b> (carry!)

How did you get on?
