

HOW TO DRAW MINIMUS

I like to start with his EYES
oval shape, same size

two curved lines
shorter one at nose end
longer line goes under eyes
semicircle from nose to under eye

EARS - and line inside them
NOSE bobble

2 whiskers on each side
EYEBROWS are very important
smile

Use pupils and eyebrows and mouth to change expression

guilty or nervous

shocked

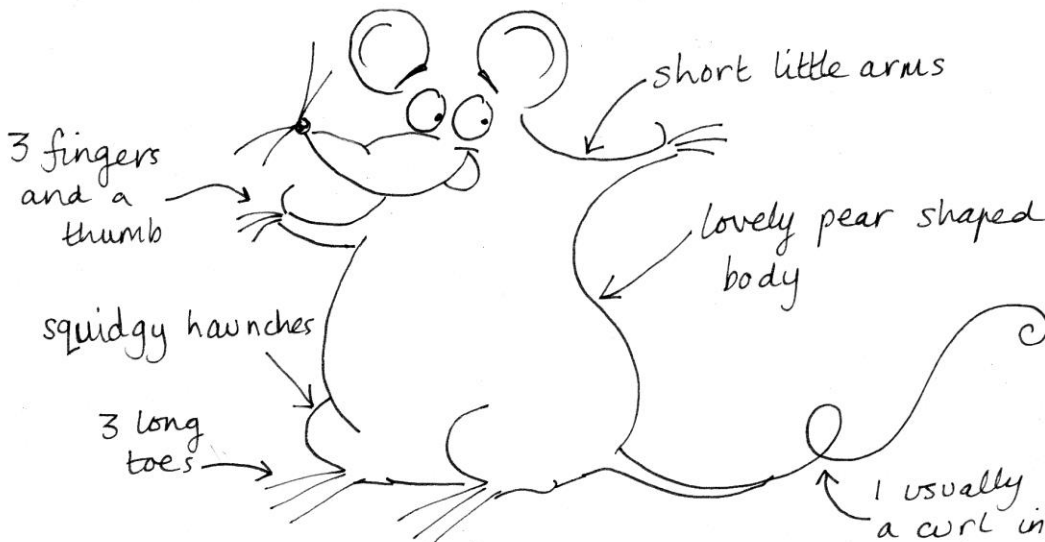

angry

laughing

3 fingers and a thumb
squidgy haunches
3 long toes
short little arms
lovely pear shaped body
I usually draw a curl in his tail

There you are -
MINIMUS!

Add eyelashes and 'lipstick'
and you've drawn Minima!
